Exam II: In class, Tuesday, April 4, covering material from lecture and the book, Chapters 5-8 including S2.

Reading Assignment: Chapters S2 & 8

Important Note: The Cosmic Perspective contains “Problems,” “Review Questions,” and “Discussion Questions.” Make sure you do the ones indicated (usually we do the “Problems”).

Chapter 7: Problems 5, 7, 10

Chapter S2: Problem 6

Chapter 8: Problems 1, 4, 7, 8

Other Problems: Choose one of the following two questions to answer:

1. Do you think the huge amount of money used to put men on the moon in the Apollo program was justified? Please write one to two paragraphs arguing why or why not. Feel free to use the internet to gather more information.

2. Where should the space program go and why? Please write one to two paragraphs explaining what you would like NASA to explore bearing in mind the potential costs?
